

P1 CAR PARK CHANGES

INFORMATION SHEET | FEBRUARY 2021

In preparation for the opening of our new Emergency Department in 2022, a range of works are required within the hospital's P1 car park to support additional capacity and improved vehicle and pedestrian traffic flow.

From Wednesday 17 March to approximately mid November 2021, access to the P1 visitor car park will be restricted to emergency vehicles, public bus services, patient drop-off, renal dialysis patients and accessible (disabled) parking. Alternative parking is available in the nearby P2 car park and other visitor car parks across campus.

Works will be undertaken 24 hours a day, seven days a week and involve a number of stages, with varying impacts at any given time. Motorists and pedestrians are asked to please follow signage and instructions of traffic controllers to ensure safe travel. Increased construction vehicle traffic and some noise, dust and vibration impacts may also be experienced.

A range of minor site preparation works will also be undertaken during the week prior to the closure, with traffic control in place where required.

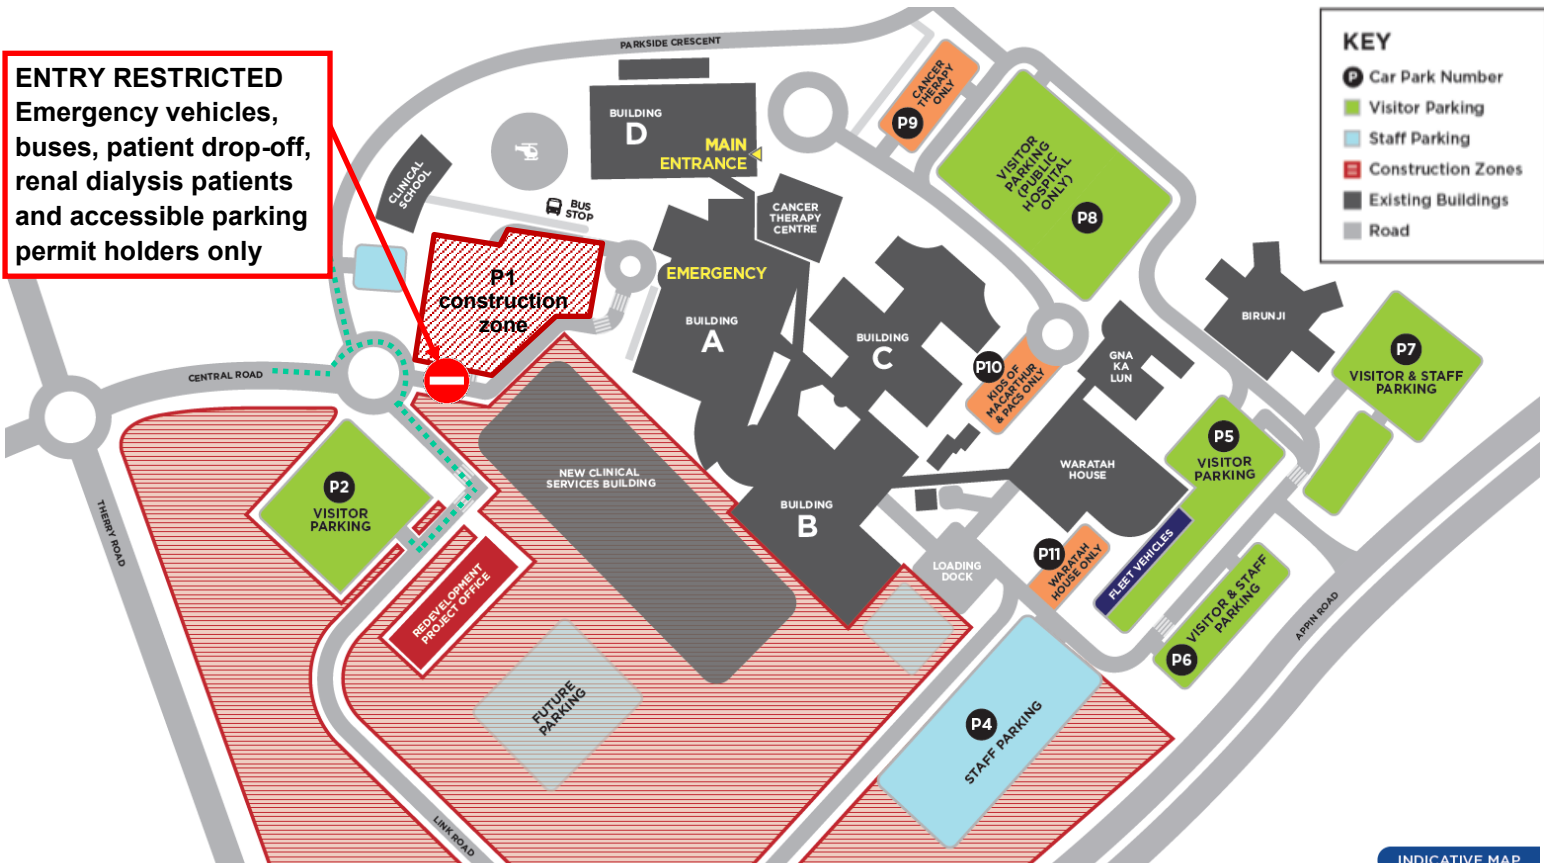

Concerns or questions?

Thank you for your patience as we build your new hospital. If you have any concerns or questions about these works, please contact the Campbelltown Hospital Redevelopment team via the contact details below.

SUMMARY OF IMPACTS

- Restricted parking in P1 car park from 17 March to mid-November
- Alternative parking available in nearby P2 car park
- Emergency vehicles and valid permit holders excepted
- Patient drop-off and bus services will be maintained during works

ENTRY RESTRICTED
Emergency vehicles, buses, patient drop-off, renal dialysis patients and accessible parking permit holders only
