## SITE SHEDDING

The recent removal of site sheds has revealed the future main entrance and soon to open P3 public car park. With works wrapping up on the outside and final touches being made on the interior, it's not long to go until we welcome you into your new hospital building.

The building is officially handed over by the builder on the 27 May and our 12 week move plan commences on Monday 30 May. The new main entrance and hospital street will open on Monday 6 June, and the Emergency Department is scheduled to move on Wednesday 29 June.

Check out our 12 week move plan in the drop down menu on the left to see when each service is set to MOVE.

## COMMUNITY HUB

The community hub on Level 0 of the new clinical services building is nearly complete.

Close to the outdoor courtyard and eatery, the space has special soft fall flooring and quiet meeting areas, providing a place where people can relax, reflect and connect.

Thanks to Senior Project Director, Chris Skeggs, for helping showcase the new hospital meeting space.

## COURTYARDS ARE COMING ALONG

The new clinical services building is not short on spaces to get outside and connect with nature. Check out the future Level 3 ICU courtyard nearing completion.

Works occurring in the future P1 car park

## CURRENT CONSTRUCTION WORKS

You may notice a temporary detour along the internal road network while works are underway on the future main entrance drop-off and pick-up zone. Until mid-May, access the P2 visitor car park and P4 staff car park will be via the Therry Road or Appin Road entrances.

We thank you for your patience while we worked on the Building A-B Level 1 link bridge. We acknowledge that the navigation around the space wasn't the most direct path of travel, so thank you for getting in those extra steps. Works on Building A-B Level 2 link bridge are soon to start and we will keep you informed on the best path of travel to the ICU while the final connections to the new building are underway.

## WELCOME STONE

The special welcome stone chosen by our local Aboriginal Elders and community members is now installed at the future main entrance.

Selected at Appin Quarry last year, the welcome stone will feature Indigenous language inviting you on to Dharawal Country.

## SIGNS DELIVERED

Have you seen the recent install of the external signage around the campus?

Check out the truck delivering one of the the Campbelltown Hospital signs installed at the Central Road roundabout near the future Emergency Department.

# 28 DAYS TO GO!

**Click here** to register now for our next **RED**talk at 11am on Thursday 12 May.

The May session will provide you and your team with detailed information about the upcoming campus changes and move plans.
