

## BUILDING REMOVAL

INFORMATION SHEET | OCTOBER 2022

**From October 2022, you may notice an increase of dust, noise, vibration and construction traffic around the Campbelltown Hospital campus, as decommissioning works commence on Building C, Gna Ka Lun and Waratah House.**

As part of the final works for the \$632 million Stage 2 redevelopment at Campbelltown Hospital, a range of refurbishments and landscaping will occur until late 2023.

You may notice an increase of dust, noise, vibration, and construction traffic, while our builders set up their work site and begin the decommissioning of Building C, Gna Ka Lun and Waratah House.

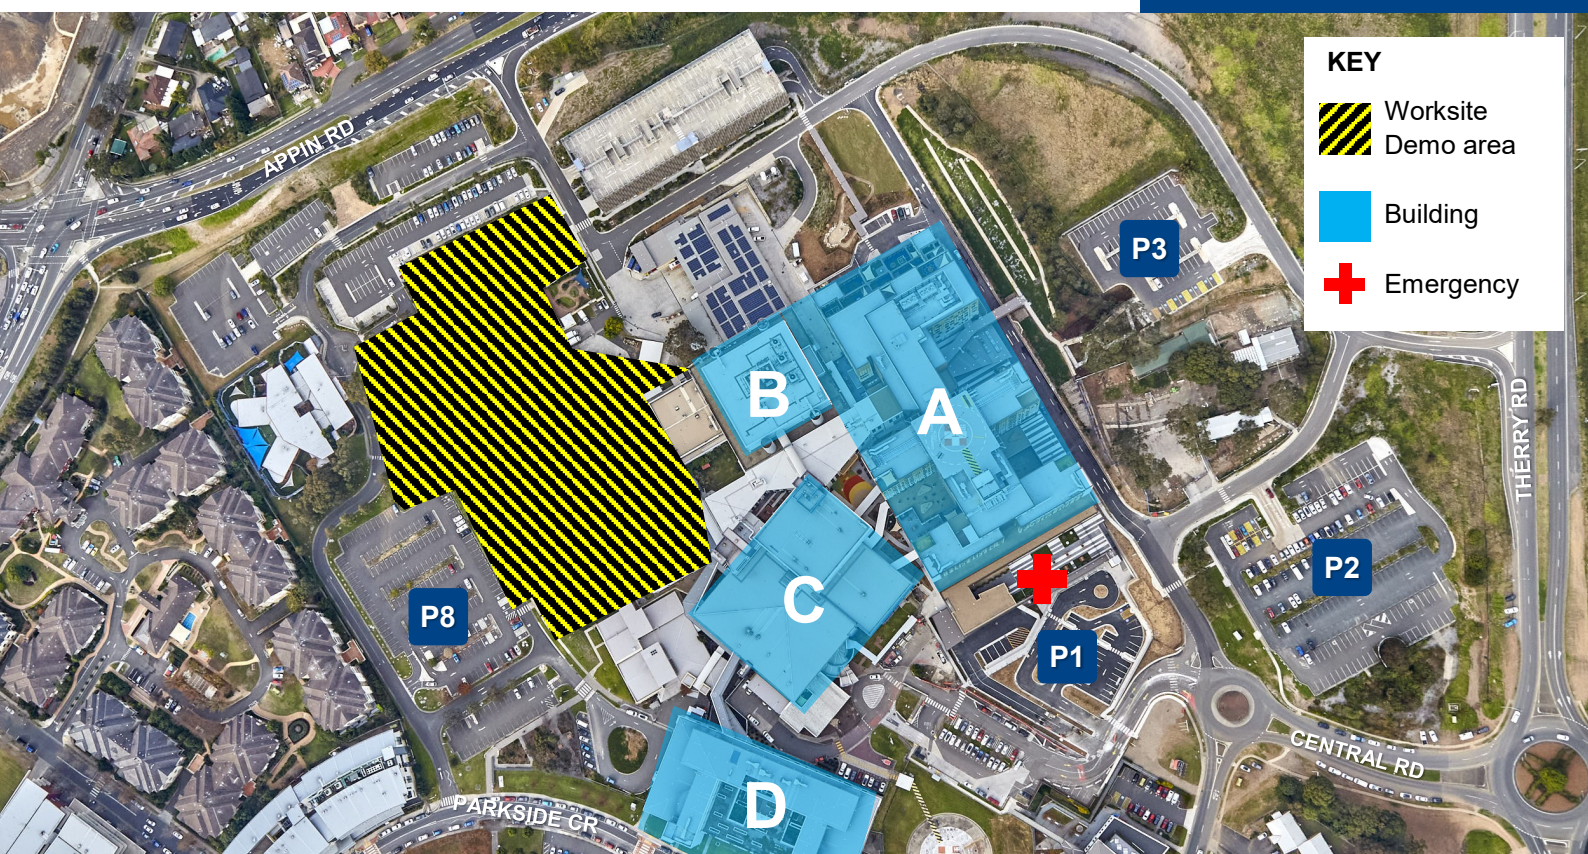

The health and safety of staff and the community are our top priority, and we have strict controls in place to minimise any construction disruptions. View our noise, dust and vibration mitigations at <https://bit.ly/CHRMitigations22>.

Areas that might be subject to short-duration higher impacts will be notified prior to the activity commencing.

If you have any concerns or questions, or if you identify any hazards, contact the Campbelltown Hospital Redevelopment Team on 4634 4994 or email [SWSLHD-CampbelltownHospitalRedevelopment@health.nsw.gov.au](mailto:SWSLHD-CampbelltownHospitalRedevelopment@health.nsw.gov.au).

## KEY CHANGES

- Possible noise, dust and vibration from building demolition
- Increased construction traffic on campus
- Additional work site established

### KEY

-  Worksite  
Demo area
-  Building
-  Emergency
